

Business and Non-Instructional Operations

Information Security Breach and Notification

The Board of Education is concerned about the rise in identity theft and the need for prompt notification when security breaches occur. Therefore, the District will take reasonable security measures to guard against the foreseeable loss or exposure of restricted personal information about staff, students, and parents. The District will consider practices concerning physical, technical and administrative safeguards for both paper and electronic records.

To this end, the Board directs the Superintendent of Schools, in accordance with appropriate business and technology personnel, to establish regulations which:

- Identify and/or define the types of private information that is to be kept secure. For purposes of this policy, “private information” does not include information that can lawfully be made available to the general public pursuant to federal or state law or regulation;
- Include procedures to identify any breaches of security that result in the release of private information; and
- Include procedures to notify persons affected by the security breach.

Any breach of the district’s data which compromises the security, confidentiality, or integrity of personal information and information pertaining to District security and maintained by the District shall be promptly reported to the Superintendent and the Board of Education. However, good faith acquisition of personal information by an officer or employee or agent of the District for the purposes of the District is not considered a breach of the security of the system, provided that the private information is not used or subject to unauthorized disclosure.

Legal Reference: Connecticut General Statutes

1-19(b)(11) Access to public records. Exempt records.
